

WARRANTY REGISTRATION

Limited warranties

Idéal Cargo offers a limited lifetime warranty, to the original purchaser only, against structural corrosion resulting from perforation or degradation originating from within the galvanic coating. This warranty covers materials and labour. Lifetime warranty exclusions: Any surface scratches to the trailer arising from misuse or unnatural situations (e.g., accident, collision, impact, modifications to the structure, frequent use on gravel roads) resulting in corrosion.

Idéal Cargo Inc. offers a 1-year limited structural warranty on all models with a GVWR of 4,500 kg or under (or axles TA3 and under). Idéal Cargo Inc. offers a 1-year warranty on all models with a GVWR of more than 4,500 kg (or axles TA4 and above). If the trailer is hauled by a semi truck (2 or more rear axles), the structure is not covered by the warranty. This warranty covers materials and labour. Exclusions: Any abusive use arising from unnatural situations or non-compliance or lack of compliance with the maintenance points of your trailer (e.g., accident, collision, impact, modifications to the trailer, change of axle, snow accumulation on the roof) resulting in premature and abnormal wear.

Idéal Cargo Inc. offers a 5-year limited warranty, to the original purchaser only, against roof water infiltration, on all its models. This warranty covers materials and labour. Exclusions: Any misuse, or the occurrence of unnatural situations (e.g., accident, collision, impact, or modifications to the trailer) resulting in premature and abnormal wear.

Idéal Cargo Inc. offers a 3-year warranty covering any manufacturing defects related to the delamination of the trailer's interior and exterior walls (GreenEdge biocomposite panels). The warranty also covers premature discolouration of the panels. Exclusions: Any misuse, or the occurrence of unnatural situations (e.g., accident, impact, wear caused by rock or sand, or modifications to the trailer) resulting in premature and abnormal wear.

All of the above warranties are transferable provided that the proper document (TRANSFER OF WARRANTIES) is used for this purpose. For a warranty transfer, please make the request to your dealer. All warranty transfers must be authorized by Idéal Cargo Inc.

Warranties will be honoured only if the repair is authorized by Idéal Cargo Inc. and performed at a dealer authorized by Idéal Cargo Inc. If a repair is performed elsewhere than at a dealer authorized by Idéal Cargo Inc., the warranties do not apply.

All replacement lettering, service, towing or transportation charges are the responsibility of the purchaser and are not paid by Idéal Cargo Inc. and its authorized dealers. Therefore, loss of time, miscellaneous inconveniences, loss of use of the trailer, equipment rental or replacement costs, loss of income and other commercial losses are not covered by the warranties. These warranties do not apply if the product has been subjected to misuse, excessive loads, or insufficient maintenance.

APPENDIX – IDÉAL CARGO WARRANTIES

TRAILER MAINTENANCE

In order to guide customers in optimally maintaining their trailer, Idéal Cargo Inc. asks its dealers to offer a 15-point inspection and maintenance overview to each customer purchasing an Idéal Cargo trailer.

The purpose of this procedure is, as much as possible, to avoid warranty claims being denied due to insufficient trailer maintenance. Properly maintaining the trailer is a sound and sustainable investment for the customer.

MANDATORY INSPECTION FOR THE 1-YEAR LIMITED WARRANTY ON TIRES, AXLES AND WHEEL BEARINGS.

Idéal Cargo offers a limited 1-year warranty on tires, axles and wheel bearings, provided that an inspection visit has been made to your initial dealer (the one that sold you the trailer, or else fees apply), within 30 days of taking possession of your trailer in order to check the condition of the components. This inspection is mandatory to preserve your 1-year limited warranty. You must provide proof of inspection completed/authorized by your dealer. This form will be completed and provided to you by your dealer as proof of inspection to ensure warranty validity.

Customer's initials:

Following is the maintenance to be done on the trailers in order to retain all protections under Idéal Cargo warranties:

1. Grease the wheel bearings every 5,000 kilometres and check that the ball bearings are fitted;
2. Adjust the brake bands every 5,000 kilometres;
3. Check that the tongue is securely attached to the trailer ball and that they are the same dimensions;
4. Check that all the hub caps are still in place;
5. Check that the safety chains are crossed under the tongue and attached to the vehicle;
6. Check that all the lights are working properly;
7. Wash the trailer with soap and water, and never with a corrosive product;
8. Make sure that the tire air pressure is as recommended by the manufacturer;
9. Customer must check wheel bolts after first use (tighten securely with a 100 lb torque wrench);
10. Grease the jack 3 times a year (3-month warranty by the manufacturer);
11. Make sure load is properly distributed on the trailer floor;
12. Make sure that the front and rear of the trailer are level with the ground when trailer is attached to the vehicle;
13. Always thoroughly remove snow from the trailer in winter. Breakage or failure caused by snow accumulation is not covered by the warranties;
14. To avoid excessive condensation, always thoroughly remove snow from motor vehicles if the trailer is used for storage;
15. If the trailer is hauled by a semi truck (2 or more rear axles), the structure is not covered by the warranty.

N.B.: NOT EVERYTHING THAT FALLS UNDER NORMAL INSPECTION AND MAINTENANCE IS COVERED BY THE WARRANTIES

I have checked the 15 points mentioned above with the delivery manager (representative, mechanic, service person) at my dealer before taking possession of my trailer. I have read the document carefully and I understand the steps to take in order to maintain my trailer properly.
